

FLSH

Location-based Bathroom Reviews

Team Members: Zach Holbrook, Tarum Fraz, Devin siems, Elisabeth "Beth" Oliver, Brooke Dalton

Document Name: Sprint 2 Plan

Sprint 1 Completion Date: In Progress

Revision Number: 1.2

Revision Date: -

Goal

Our goal is to make flsh more customer friendly by working on front-end usability. We wish to implement a basic working web application.

Task Listing

Sprint 2 (13 story points)

1. As a user, I need a passably clean front-end that shows bathroom locations on the map
 - a. Read documentation on OpenStreetMaps(1)
 - b. Learn how to implement OpenStreetMaps with html(1)
 - c. Sync up the given data to a pin on the map (3)
 - d. Learn how to drop pins on the map (3)
2. As a user, I need to be able to submit resources (bathrooms & etc) through the front-end
 - a. Make an html page for submitting various resources(1)
 - b. Implement PUT/POST requests with html(1)
3. As a user, I need to append review data to existing reviews
 - a. Make front-end back-end communication be able to update/replace (2)
 - b. Insert those parameters into the database(1)
